UPDATES

- Communicable disease surveillance updates are available at:
<https://tricountyhealthut.gov/communicable-disease-and-surveillance/>
 - WIC Audit and Site Visit occurred in April
 - Financial Audit was completed in May
 - Revize Website upgrades and unexpected invoice from Keystone Marketing
 - Federal Funding cuts and projected cuts continue:
 - CDC's Office on Smoking and Health (OSH) was eliminated by the U.S. Department of Health and Human Services (HHS) on April 1 - This could represent a 12% cut to our tobacco programs unless the funding come through a different office/method
 - Administration for Strategic Preparedness and Response (ASPR), responsible for national disaster and public health emergency response, will move under the CDC as part of HHS restructuring and consolidation of 28 divisions down to 15 divisions. This puts HPP & MRC funding in potential limbo (approx 100K annually).
 - WIC received an 8% (25k) cut this year based on the overall lower participation rate of Utah, coupled with our comparative participation rate locally (which has been improving tremendously).
 - Staff have been informed to brace for potential cuts of up to 25% cut to the Vaccine For Children program.

CONSIDERATION OF A ONE-TIME EARLY RETIREMENT INCENTIVE PROGRAM*

Raima, Bruce and I have been evaluating how to approach a potential reduction in workforce (RIF). We recommend the board consider a one-time early retirement incentive. This approach provides a respectful and voluntary option for employees nearing retirement to leave the workforce while creating opportunities for advancement and growth among remaining staff. By encouraging natural transitions, we aim to minimize disruption while aligning our workforce with current financial realities. Here is a [Summary of the Proposal for your consideration](#).

CONSIDERATION OF A RESOLUTION OF THE TRICOUNTY BOARD OF HEALTH ESTABLISHING A FATALITY REVIEW COMMITTEE FOR DAGGETT, DUCHESNE, AND Uintah COUNTIES AND PROVIDING FOR THE REVIEW OF CAUSES AND CONTRIBUTING FACTORS RELATED TO DEATHS INVOLVING SUBSTANCE ABUSE, SUICIDE, MENTAL HEALTH, OR CHILDREN AND ADOLESCENTS.

This was originally proposed as a concept in our Sept 2024 Board meeting. At that time, the board suggested we continue to evaluate this with legal counsel to ensure this complied with applicable laws. That review has been done.

This resolution would establish a committee to review circumstances related to deaths involving substance abuse, suicide, mental health, or children and adolescents. This would provide a legal framework for Hospitals, jails, and mental health agencies to review whether recent patients/inmates/clients died by suicide, drug overdose, or other factors, and work to identify and address potential trends or interventions.

This committee would also review deaths in children and adolescents, as these are commonly related to injury, abuse, or suicide. This committee would also be empowered to look for trends or potential interventions that could be addressed on these fronts as well.

The [RESOLUTION IS ATTACHED HERE](#) for your consideration.
